PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/650,125	Applicant(s) MURPHY ET AL.	
	Examiner Lyle A. Alexander	Art Unit 1797	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 September 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-8,11-12,14,16,66 and 70-73 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

See the appropriate paragraph of the 6/25/07 Office action.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8,11-12,14,16,66 and 70-73 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

See the appropriate paragraph of the 6/25/07 Office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8,11-12,14,16,66 and 70-73 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Han et al. (USP 4,241,602), Tadros (USP 5,078,007) or Tjahjadi et al (USP 5,974,866).

See the appropriate paragraph of the 6/25/07 Office action.

Claims 1-8,11-12,14,16,66 and 70-73 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Sljaka et al. (USP 3,229,507).

See the appropriate paragraph of the 6/25/07 Office action.

Response to Arguments

Applicant's arguments filed 9/25/07 have been fully considered but they are not persuasive.

Applicants state "absorptometry curves" are well known in the art as evidenced by USP 3,952,087. This reference to Antonsen et al. has been considered. This reference states absorption techniques are known. However, Antonsen et al. do not teach the claimed "absorptometry curve" or how one would create such a curve. Applicants' have also provide non-USP references describing to "absorptometers". These references teach equipment but fail to teach what and how the claimed "absorptometry curves" could be calculated. The Office maintains one having ordinary skill in the art would not be able to make and or use the instant invention as presently claimed and maintains the 35 USC 112 rejections are proper.

Applicants traverse the cited prior art stating these reference do not teach the claimed method using the claimed "absorptometry curves". In the absence of knowing how to make and use the claimed "absorptometry curves", the Office maintains the cited prior art is performing a similar method of quality control analysis and has been properly applied.

The Office regrets that non-considered "other documents" were apparently not scanned into the USPTO system. It would be helpful if Applicant could supply additional copies of these documents for consideration. Applicants should note the 37 CFR 1.97 requirements must be met for consideration of any documents.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lyle A. Alexander whose telephone number is 571-272-1254. The examiner can normally be reached on Monday, Wednesday and Friday.
